It is important to ensure clear access to your water meter so accurate readings can be provided. For information on how to read your meter, as well as helpful videos to check if you may have a water leak, visit our website at www.surrey.ca/utilities.

To avoid a 5% penalty on the current charges, this bill must be paid by the DUE DATE. Outstanding balances as of December 31 will be transferred to the property tax account as arrears.

The City of Surrey only controls a small portion of the total utility rate. Metro Vancouver sets the rates to supply bulk water and treat wastewater (sewer), which make up the majority of your utility rates. For the 2026 budget year, on average, 75% of your water rate and 86% of your sewer rate is due to the rates set by Metro Vancouver.

Metered Water Customers

Visit www.surrey.ca/utilities for information on utility rates, water leak detection and how to locate and read your water meter. Sewer charges are based on a percentage of the total volume of water consumption, as determined in the City Sanitary Sewer Regulation & Charges Bylaw. Meters measure in cubic metres or cubic feet • 1 Cubic Metre = 1000 Litres • 1 Cubic Foot = 28.3 Litres.
